

Inside the Asset folder-> Scenes->click 3DBird to load the game The Game screen should be set to Full HD, and Maximize On Play should be turned on for a better experience.

- Use the space key to start the rocket and accelerate
- Use the left and right arrow keys to control direction.
- Landing on the green platform should take the player to the next level, 3 levels in total
- Crashing with a wall or ground will lose the game and go back to the first level
